

GEABIND KDF

Chemical Nature:	casein additivated with wax in aqueous emulsion
Active Substance:	approx. 8%
pH:	approx. 2,5
Ionic Charge:	cationic
Aspect:	white liquid
Utilization:	cationic pre-bottom

PROPERTIES

GEABIND KDF is a cationic product of high versatility use. It can be used together with other products of GETTI's cationic line, in accordance with the desired effect. Its composition provides excellent leveling and an excellent preparation for the following coats. The upgrading effect of GEABIND KDF is enhanced whenever cationic pigment is added to help masking the leather defects. GEABIND KDF resists very well to the burnishing and polishing mechanical operations, providing good leveling and covering. GEABIND KDF provides a warm and pleasant touch to the leather if used as hand feeling agent.
