

GEALUX AQ 35

Chemical Nature:	combination of binders and natural and synthetic waxes
Active Substance:	approx. 14,5%
pH:	approx. 8,5
Ionic Charge:	anionic
Aspect:	yellowish, viscous liquid
Utilization:	levelling off base with burnishing effect

PROPERTIES

GEALUX AQ 35 is based on a balanced compound of natural and synthetic waxes intended to provide burnishing effect and gloss to brushed leather. Due to its natural characteristics, besides optimising and equalising the reactivity on the surface of the leather, GEALUX AQ 35 imparts a natural aspect with shine and transparency. GEALUX AQ 35 may be used either as an only product, diluted in water or combined with other waxes and binders depending on the desired burnishing effect.
