Active Substance:	approx. 21%
pH:	approx. 8,0
Ionic Charge:	anionic
Aspect:	white viscous solution
Utilization:	pigmented finishes for upholstery

PROPERTIES

COMPOUND STF is a product developed for upholstery leathers that requires excellent covering and embossing properties, besides excellent physical-mechanical resistance. Due to its well balanced composition, COMPOUND STF presents excellent leveling, covering and low surface tack.

COMPOUND STF can be used as a only product, mixed with pigment for color matching. The application can be done on roller coater and by spray on HVLP or air less systems.
