Aspect:	white liquid
Utilization:	pre-bottom for pigmented finishes of upholstery type and footwear.

PROPERTIES

GEAGROUND BASE SMF is a pre-bottom of average closing made-up by waxes, oils, closing agents, and synthetic linking agents. It is recommended to apply GEAGROUND BASE SMF on roller coating machine in the proportion of 800 g of product for 200 g anionic pigment. GEAGROUND BASE SMF provides the leathers a good upgrade and medium closing. After its application, the leathers must be embossed (pore or relax) and milled, for afterwards receiving the coverage painting. Indicated for pigmented finishes of upholstery type and footwear.
