

GEAFEEL TPG

Chemical Nature:	combination of special oils and waxes
pH:	approx. 8,0
Ionic Charge:	no ionic
Aspect:	light beige liquid
Utilization:	feel modifier

PROPERTIES

GEAFEEL TPG is a feel agent developed from special raw materials that impart a natural, oily, humid surface feel. GEAFEEL TPG provides good fixation on the surface of the leather while preserving the desired oily feel. It is recommended to use this product after the end of the finishing process. GEAFEEL TPG is easily diluted in water in a ratio that will depend on the intensity of the desired effect.
