

GEAGROUND MA 10

Chemical Nature:	combination of waxes, proteins, resins, and polyurethanes.
Solids Content:	approx. 21%
pH:	approx. 8,0
Ionic Charge:	anionic
Aspect:	yellowish white viscous liquid
Utilization:	covering for protein finishes

PROPERTIES

GEAGROUND MA 10 is a compound developed for natural finishes that require transparence and natural look. Its balanced composition enables a large use on protein finishes. Used as only product, it is recommended to add just water in the proportion of 1:1 with GEADERM S Color liquid dyes to match colors.
